The Civil Rights Reader Julie Buckner Armstrong
2009-01-01 This anthology of drama, essays, fiction, and poetry presents a thoughtful, classroom-tested selection of the best literature for learning about the long civil rights movement. Unique in its focus on creative writing, the volume also ranges beyond a familiar 1954-68 chronology to include works from the 1890s to the present. The civil rights movement was a complex, ongoing process of defining national values such as freedom, justice, and equality. In ways that historical documents cannot, these collected writings show how Americans negotiated

this process--politically, philosophically, emotionally, spiritually, and creatively. Gathered here are works by some of the most influential writers to engage issues of race and social justice in America, including James Baldwin, Flannery O'Connor, Amiri Baraka, and Nikki Giovanni. The volume begins with works from the post-Reconstruction period when racial segregation became legally sanctioned and institutionalized. This section, titled "The Rise of Jim Crow," spans the period from Frances E. W. Harper's *Iola Leroy* to Ralph Ellison's *Invisible Man*. In the second section, "The Fall of Jim Crow," Martin Luther King Jr.'s "Letter from Birmingham Jail" and a chapter from *The Autobiography of Malcolm X* appear alongside poems by Robert Hayden, June Jordan, and others who responded to these key figures and to the events of the time. "Reflections and Continuing Struggles," the last section, includes works by such

current authors as Rita Dove, Anthony Grooms, and Patricia J. Williams. These diverse perspectives on the struggle for civil rights can promote the kinds of conversations that we, as a nation, still need to initiate.

Coping with Two Cultures Paul Avtar Singh Ghuman 1993 "This book makes a significant contribution to our understanding of the issues and concerns of the second-generation Asian young people living in Britain and Canada. It is based on extensive fieldwork data collected through an attitude scale, a questionnaire and interviews with young people. Also a large number of parents, teachers and a small number of community leaders were interviewed to place the discussion in a broader framework. Verbatim extracts are used liberally to give the reader both the flavour and tone of responses. What emerges is an optimistic

picture. The young people in the study are developing a bicultural outlook to reconcile the differing values of school and home. The majority of them are at ease with both cultures - the Indo-Canadians more so than the British Asians."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The Damned Utd David Peace 2014-03-11 "Probably the best novel ever written about sport." —The Times (UK) He was a real-life, working-class hero known as the "British Muhammad Ali"—because he had a big mouth and wasn't afraid to use it. But Brian Clough wasn't a boxer, he was a soccer coach, known for taking backwater teams and making them into champions. In towns where people had little else, the hard-drinking and scrappy Clough

was a hero. He was especially beloved for telling it like it was on behalf of small-town teams everywhere—calling out the stars who played dirty, rival coaches he suspected of bribing referees, and the league that let them get away with it. And then one day Clough was offered a job coaching the big-city team he'd called the dirtiest—the perennial powerhouse Leeds United. The Damned Utd tells the story of the legendary Clough's tumultuous forty-four days trying to turn around a corrupt institution without being corrupted himself—the players who wouldn't play, the management that looked the other way, the wife and friends who stood by him as he fought to do the right thing. The inspiring story behind the movie of the same name, The Damned Utd has been called by The Times of London, "The best novel ever written about sport."

Iron and Steel Henry M. McKiven Jr. 2011-01-20 In this study of Birmingham's iron and steel workers, Henry McKiven unravels the complex connections between race relations and class struggle that shaped the city's social and economic order. He also

traces the links between the process of class formation and the practice of community building and neighborhood politics. According to McKiven, the white men who moved to Birmingham soon after its founding to take jobs as skilled iron workers shared a free labor ideology that emphasized opportunity and equality between white employees and management at the expense of less skilled black laborers. But doubtful of their employers' commitment to white supremacy, they formed unions to defend their position within the racial order of the workplace. This order changed, however, when advances in manufacturing technology created more semiskilled jobs and broadened opportunities for black workers. McKiven shows how these race and class divisions also shaped working-class life away from the plant, as workers built neighborhoods and organized community and political associations that reinforced

bonds of skill, race, and ethnicity.

Carry Me Home Diane McWhorter 2001-06-29

Now with a new afterword, the Pulitzer Prize-winning dramatic account of the civil rights era's climactic battle in Birmingham as the movement, led by Martin Luther King, Jr., brought down the institutions of segregation. "The Year of Birmingham," 1963, was a cataclysmic turning point in America's long civil rights struggle. Child demonstrators faced down police dogs and fire hoses in huge nonviolent marches against segregation. Ku Klux Klansmen retaliated by bombing the Sixteenth Street Baptist Church, killing four young black girls. Diane McWhorter, daughter of a prominent Birmingham family, weaves together police and FBI records, archival documents,

interviews with black activists and Klansmen, and personal memories into an extraordinary narrative of the personalities and events that brought about America's second emancipation. In a new afterword—reporting last encounters with hero Reverend Fred Shuttlesworth and describing the current drastic anti-immigration laws in Alabama—the author demonstrates that Alabama remains a civil rights crucible.

Tracing Your Birmingham Ancestors Michael Sharpe 2015-04-30 Birmingham, the cradle of the industrial revolution and the world's first

manufacturing town, is an important focus for many family historians who will find that their trail leads through it. Rural migrants, Quakers, Jews, Irish, Italians, and more recently people from the Caribbean, South-Asia and China have all made Birmingham their home. This vibrant history is reflected in the city's rich collections of records, and Michael Sharpe's handbook is the ideal guide to them. He introduces readers to the wealth of information available, providing an essential guide for anyone researching the history of the city or the life of an individual ancestor. His work addresses novices and experienced researchers alike and offers a compendium of sources from legal and ecclesiastical archives, to the records of local government, employers, institutions, clubs, societies and schools. Accessible, informative and extensively referenced, it is the perfect companion for research in Britain's second city.

Devaluation and Pricing Decisions Douglas Hague
2022-02-11 First published in 1974, *Devaluation and Pricing Decisions* is based on case studies of the export pricing decisions made by nineteen major British companies after the 1967 devaluation. The aim was to look in detail at the decisions that major British firms took after devaluation and to see how they had responded to this major change in government policy. This book shows how far the firms had anticipated the devaluation; what company objectives were at that time and what changes in these objectives, or in pricing and marketing policies, were made to take advantage of new opportunities for exporting and for import substitution. The researchers also examined the actual process of decision making to find what information was available to the decision makers

and how they used it. The book is directed to businessmen taking decisions on export prices and marketing in the world of today where foreign exchange rates change frequently. It is also directed towards those responsible for shaping national economic policy. For students of economics, it represents a study showing, in considerable detail, how a number of businesses responded to the 1967 devaluation.

Race, Class, and Power in the Alabama Coalfields, 1908-21 Brian Kelly 2001 In this lucid and supremely readable study, Brian Kelly challenges the prevailing notion that white workers were the main source of resistance to racial equality in the Jim Crow South. Kelly explores the forces that brought the black and white miners of Birmingham, Alabama, together during the hard-fought strikes of 1908 and 1920. He examines the systematic efforts by the region's powerful

industrialists to foment racial divisions as a means of splitting the workforce, preventing unionization, and holding wages to the lowest levels in the country. He also details the role played by Birmingham's small but influential black middle class, whose espousal of industrial accommodation outraged black miners and revealed significant tensions within the African-American community.

Alabama's Own in France William Henry Amerine 1919

The Student City Leo van den Berg 2017-05-15 Student communities are without doubt a strategic resource for urban development and students are the citizens and the high-skilled working class of tomorrow. They are seen as an 'invisible population' with little say in local policy and decision-making. Co-operation between educational institutions and

city planners is often missing and cities tend to neglect the universities' foreign relations. This volume argues that the importance of human capital in the competitiveness of cities demands pro-active, integral city policies targeting this community. Bringing together nine case studies of European cities (Rotterdam, Utrecht, Eindhoven, Munich, Lyon, Lille, Venice, Birmingham and Helsinki), it puts forward a comprehensive strategic plan of action, aiming at the integration of student communities in urban development. The book analyses the essential characteristics of the relationship between students and their host communities, as well as the role of higher education institutions and other actors in building the 'student friendly' city.

Godblind Anna Stephens 2018-02-19 Fantasy's most anticipated debut of the year There was a time when the Red Gods ruled the land. The Dark Lady and her horde dealt in death and blood and fire. That time has long since passed and the neighbouring kingdoms of Mireces and Rilpor hold an uneasy truce. The only blood spilled is confined to the border where vigilantes known as Wolves protect their kin and territory at any cost. But after the death of his wife, King Rastoth is plagued by grief, leaving the kingdom of Rilpor vulnerable. Vulnerable to the blood-thirsty greed of the Warrior-King Liris and the Mireces army waiting in the mountains... GODBLIND is an incredible debut from a dazzling new voice of the genre.

Politics and Welfare in Birmingham, 1900–1975

Edward Shannon LaMonte 2015-09-15 This well-written volume explores the relationships between politics and welfare programs for low-income residents in Birmingham during four periods in the twentieth century: • 1900-1917, the formative period of city building when welfare was predominantly a responsibility of the private sector; • 1928-1941, when the Great Depression devastated the local economy and federal intervention became the principal means of meeting human need; • the mid 1950s, when the lasting impacts of the New Deal could be assessed and when matters of race relations became increasingly significant; • 1962-1975, when an intense period of local government reform, the Civil Rights movement, federal intervention in the form of the War on Poverty, and increasing demands for citizen participation all reinforced one another. From the

time of its founding in 1871, Birmingham has had a biracial population, so the theme of race relations runs naturally throughout the narrative. LaMonte pays particular attention to those efforts to achieve a more harmonious biracial community, including the failed effort to establish an Urban League in the 1940s, the progressive activities of the Community Chest's Interracial Division in the 1950s, which were abruptly terminated, and the dramatic events of the Civil Rights Movement in the 1960s, when local events were elevated to international significance.
