**My Garden, the City and Me** Helen Babbs 2011-06-09 Helen Babbs is a self-proclaimed city girl who lives on the second floor of a flat in a chaotic corner of London. An urge to find more green in the city and a stronger connection to the natural world leads her to create her first garden, an organic edible garden on her rooftop. This year-long adventure is the story behind My Garden, the City and Me. The journey begins in the dark of winter, where Babbs finds herself at a seed swap on a February morning, seduced more by packaging than by any true understanding of the plants. As the year progresses, Babbs revels in failures, like waking up bleary eyed and stomping on her seed starts, and triumphs like her summer-ending dinner party made with homegrown produce. Along the way she discovers "that I like gardening in my pajamas and that growing something from seed, watching it develop and then eating its fruits is truly joyful. I've daydreamed out there and entertained out there. It's the force behind new friendships that I've forged. The garden has opened my eyes to a whole new side of London and urban living." My Garden, the City

and Me is a lyrical narrative about a twenty-something in search for a bit of wild in her city. The journey is charming, honest, and steeped in the lore of London, a city equally known for its gardens and its grit. In the end Babbs has achieved a new perspective on what it means to live green in the city she loves.

The Widow's Rose Garden George L. Proferes 2022-05-04 The widow of a reputed mobster is much more than a legal client needing a new will. It develops that she has effectively hidden a famous occupation with the use of a pseudonym. And, the lawyer she engages has never before practiced law, had any clients nor is he aware of her other life. The setting for this mystery is a remote island in the most eastern stretches of Long Island Sound, unlike any of the other small islands that dot the seas off the eastern end of Long Island's north fork. On this isle resides a woman shepherd who tends a flock of sheep for the widow. She, however, also has another life; being, in fact, an artist of repute. These are only a few of the anomalies that figure prominently in the fast paced thriller, filled with many interesting characters, a number of sub plots and surprising developments that should keep the reader riveted to its pages from beginning to end.

PETER PAN IN KENSINGTON GARDENS - Baby Peter's First Adventure J. M. Barrie 2018-10-10 Peter Pan In Kensington Gardens is a novel by J. M. Barrie and exquisitely illustrated by Arthur Rackham. In this adventure, Peter is a seven-day-old infant who, "like all infants", used to be part bird. Peter has complete faith in his flying abilities, so, upon hearing a discussion of his adult life, he is able to escape out of the window of his London home and return to Kensington Gardens. Upon returning to the Gardens, Peter is shocked to learn from the crow Solomon Caw that he is not still a bird, but more like a human - Solomon says he is crossed

between them as a "Betwixt-and-Between". Unfortunately, Peter now knows he cannot fly, so he is stranded in Kensington Gardens. At first, Peter can only get around on foot, but he commissions the building of a child-sized thrush's nest that he can use as a boat to navigate the Gardens by way of the Serpentine, the large lake that divides Kensington Gardens from Hyde Park. Although he terrifies the fairies when he first arrives, Peter quickly gains favour with them and that's when another Peter Pan adventure truly starts. Visual Research Methods in  
Architecture Igea Troiani 2020-06-18  
This book offers a distinctive  
approach to the use of visual  
methodologies for qualitative  
architectural research. It presents a  
diverse selection of ways for the  
architect or architectural researcher  
to use their gaze as part of their  
research practice for the purpose of  
visual literacy. Its contributors  
explore and use 'critical  
visualizations', which employ

observation and sociocultural  
critique through visual creations -  
texts, drawings, diagrams, paintings,  
visual texts, photography, film and  
their hybrid forms - in order to  
research architecture, landscape  
design and interior architecture. The  
visual methods intersect with those  
used in ethnography, anthropology,  
visual culture and media studies. In  
presenting a range of  
interdisciplinary approaches, *Visual  
Methodologies in Architectural  
Research* opens up territory for new  
forms of visual architectural  
scholarship.

**The Last Garden in England** Julia Kelly 2021-01-12 From the author of the international bestseller *The Light Over London* and *The Whispers of War* comes a poignant and unforgettable tale of five women living across three different times whose lives are all connected by one very special place. Present day: Emma Lovett, who has dedicated her career to breathing new life into long-neglected gardens, has just been given the opportunity of a lifetime: to restore the gardens of the famed Highbury House estate, designed in 1907 by her hero Venetia Smith. But as Emma dives deeper into the gardens' past, she begins to uncover secrets that have long lain hidden. 1907: A talented artist with a growing reputation for her ambitious work, Venetia Smith has carved out a niche for herself as a garden designer to industrialists, solicitors, and bankers looking to show off their wealth with sumptuous country houses. When she is hired to design the gardens of Highbury House, she is determined to make them a triumph, but the gardens—and the people she meets—promise to change her life forever. 1944: When land

girl Beth Pedley arrives at a farm on the outskirts of the village of Highbury, all she wants is to find a place she can call home. Cook Stella Adderton, on the other hand, is desperate to leave Highbury House to pursue her own dreams. And widow Diana Symonds, the mistress of the grand house, is anxiously trying to cling to her pre-war life now that her home has been requisitioned and transformed into a convalescent hospital for wounded soldiers. But when war threatens Highbury House's treasured gardens, these three very different women are drawn together by a secret that will last for decades. In this sweeping novel reminiscent of Kate Morton's *The Lake House* and Kristin Harmel's *The Room on Rue Amélie*, Julia Kelly explores the unexpected connections that cross time and the special places that bring people together forever.
